PUBLIC NOTICE TO BOIL WATER TIL FURTHER NOTICE

Due to a leak this afternoon in our City, Aqua Services had to turn the water off for an extended period of time requiring residents to boil water. The Texas Commission on Environmental Quality (TCEQ) has required our water system City of Log Cabin Water Company PWS ID #TX 1070121 to notify customers of the need to boil their water prior to consumption.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two mintues. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

Samples will be pulled tomorrow for testing and when it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may call the office at 903-489-2195.
